Hubert,

I want to express my gratitude for your commitment and competent handling of the HIV workforce study data. We really appreciate your responsiveness and your concern about maintaining data quality---you truly are the fastest in the West. The presentation was received by the USAID funders in WDC. Jenny will be obtaining feedback from the government of Zambia before finalizing the report. We will send you a copy when it is finalized.

Thanks again for your support and expertise.

Regards,

Joyce Lyons
